PROFESSIONAL SUMMARY

DevOps Engineer with 2+ years of experience in AWS/Azure cloud operations, Kubernetes administration, CI/CD automation, infrastructure automation, and production support at Tata Consultancy Services. Experienced in Jenkins, Docker, Kubernetes, Terraform, Git, Bash, Python, Helm, Prometheus, Grafana, and GitOps. Automated 10+ operational workflows, reducing manual effort by approximately 40%, and supported Kubernetes environments running 20+ microservices for enterprise banking applications. AWS Certified DevOps Engineer – Professional.

CORE SKILLS

Cloud: AWS, Azure | **AWS:** EC2, S3, IAM, VPC, RDS, EBS, Auto Scaling, CloudWatch, Lambda, Route 53

Containers: Docker, Kubernetes, Helm | **CI/CD:** Jenkins, GitHub Actions, GitOps, Argo CD

IaC: Terraform, CloudFormation | **Monitoring:** Prometheus, Grafana, CloudWatch

DevSecOps: SonarQube, Trivy | **Scripting:** Bash, Python, Groovy

Version Control: Git, GitHub | **OS/Networking:** Linux, TCP/IP, DNS

EXPERIENCE

DevOps Engineer | Tata Consultancy Services (Digitate) | Pune, India

May 2024 – Present

- Automated end-of-day banking transaction processing using Bash, eliminating manual intervention and improving operational reliability for a core banking client.
- Managed Kubernetes environments supporting **20+ microservices**, troubleshooting pod failures, deployment issues, application availability, and production incidents.
- Built and maintained **Jenkins CI/CD pipelines** for application build, deployment, validation, and operational automation across enterprise environments.
- Automated **10+ AWS and Azure operational workflows**, reducing repetitive manual effort by approximately **40%**.
- Automated Azure PostgreSQL Flexible Server operations including status validation, server start/restart, Kubernetes pod restarts, and database connectivity checks.
- Worked with **AWS EC2, S3, IAM, VPC, RDS, Auto Scaling, CloudWatch and DynamoDB** for cloud operations, monitoring, troubleshooting, and automation.
- Received **Star Performer of the Month** recognition at **Digitate** for delivering critical automation solutions and handling high-priority operational activities.

PROJECTS

End-to-End DevOps CI/CD Pipeline Jenkins | GitHub | Docker | Kubernetes | AWS | Argo CD | Prometheus | SonarQube | Trivy

- Designed an end-to-end **CI/CD pipeline using Jenkins and GitHub**, automating application build and deployment workflows.
- Containerized applications using **Docker** and deployed workloads on **Kubernetes**, implementing GitOps-based continuous delivery with **Argo CD**.
- Integrated **SonarQube** for code-quality gates and **Trivy** for container vulnerability scanning as part of a DevSecOps workflow.
- Implemented **Prometheus monitoring and alerting** for application availability and pipeline health.

CERTIFICATIONS

- AWS Certified DevOps Engineer – Professional
- AWS Certified Solutions Architect – Associate
- AWS Generative AI Certification

EDUCATION

Master of Computer Applications (MCA) — KLS Gogte Institute of Technology, Belgaum, KA Feb 2022 – Sep 2023

CGPA: 8.0

Bachelor of Computer Applications (BCA) — KLE RLS College of BCA, Belgaum, KA

Jun 2018 – Oct 2021

Percentage: 89%
